# LD7-E

Semi-automatic uniform case sealer

## Operator friendly

Easy to setup and operate. Simple operator controls and all mechanical adjustments.

## Engineering quality

Precision Engineering can be defined as painstaking attention to detail. The very essence of Signode.

## Simplicity in action

Simple robust construction simple set up, less than 10s changeover from one box size to another. Simple to use. Simple to maintain.

## Superb performance

Machine applied tape offers consistency, superior adhesion and a 25% productivity gain over hand-applied tape.

# LD7-E

## Semi-automatic uniform case sealer

### A number of reasons why the unique LD7-E covers your case sealing needs.

#### Product overview

The LD7-E is a great all-round case sealer with a large box range. Its compact size is particularly useful when floor space is at a premium.

#### Case sealer - flexibility and ease

Amazing fast size change over from one box to another - less than 10 seconds. The LD7-E copes extremely well with a wide variety of box sizes. Single mast technology gives the user easy access to the front face of the machine. The LD7-E offers a performance increase of 25% in time compared with taping by hand.

- Compact footprint and large versatile box range
- Machine applied tape offers superior quality adhesion, consistent and improved presentation over hand applied tape
- 2" wide tape, quick release, pressure sensitive hot melt tape. Clear, Buff, Coloured, Logos, Text and Paper!
- Interchangeable, all metal, robust taping cartridge
- Box size changeover in less than 10 seconds due to spring loaded & counter balanced head
- Consistent and easy box centralisation due to inter linked side guides
- Wheel the machine to where its most effective, with optional casters
- Consistent drive belt speed provided by single motor and gear box
- Quality engineering, off the shelf components, Separate start/stop correctly colour coded to 60204
- Minimal maintenance provided by self tensioning belts. Easily replaced with basic tools
- Easy clean all steel construction in standard powder coat or stainless steel

#### Options

- Packing table
- Outfeed conveyers
- Caster wheels
- Top squeezers
- Inkjet printer
- Paper tape

#### Major Machine Dimensions

Length	921 mm
Width	794 mm
Operating Height *	535 mm to 762 mm
Packing Table Width	460 mm

\* Without optional caster wheels.

#### LD7-E Case Capacity

Minimum case length	114 mm
Maximum case length	Infinite
Minimum case width	114 mm
Maximum case width	533 mm
Minimum case height	114 mm
Maximum case height	610 mm
